

IMPLEMENTATION SUPPORT PACKAGES

Our implementation packages are designed for those who want support to roll out a high-quality safety program across their business to set them up for success and get the most out of their investment in H&S. You'll get dedicated support and guidance to get you up and running from one of our HazardCo experts.

HAZARDCO SYSTEM IMPLEMENTATION

Get virtual support from one of our HazardCo experts to get you and your team up and running with the HazardCo system. This package is designed to get everyone on board to ensure that you are getting the best out of the HazardCo system. We will train those working on your sites how to use the HazardCo system to record their safety activity so you get the insights and the peace of mind you need to get on with the job. This package includes 1x interactive administrator user training and 2x subcontractor and site team demonstrations.

ONGOING BENCHMARKING

Our ongoing benchmarking package provides you with insights and statistics on how your business' H&S activity is tracking to keep you and your team accountable for action. When you're running a business, it's easy for things to slip through the cracks. With monthly activity reports against benchmark comparisons, monthly walkthroughs with HazardCo expert recommendations, and a Contractor Management progress review and recommendations for best practice, H&S will always be front and center.

If you're interested in learning more about these services, get in touch with the team today on 0800 555 339 or email info@hazardco.com.
