CONSTRUCTION PRODUCTS

BASIC PROJECTS

\$170+ GST

HazardCo Projects are ordered for each significant job eg. a new house build. They contain site specific resources for that job, including a site specific safety plan (SSSP)

- Site Specific Safety Plan (SSSP)
- Site Specific Hazard Board with QR code for sign-in.
- Digital resources to help you manage safety on your site

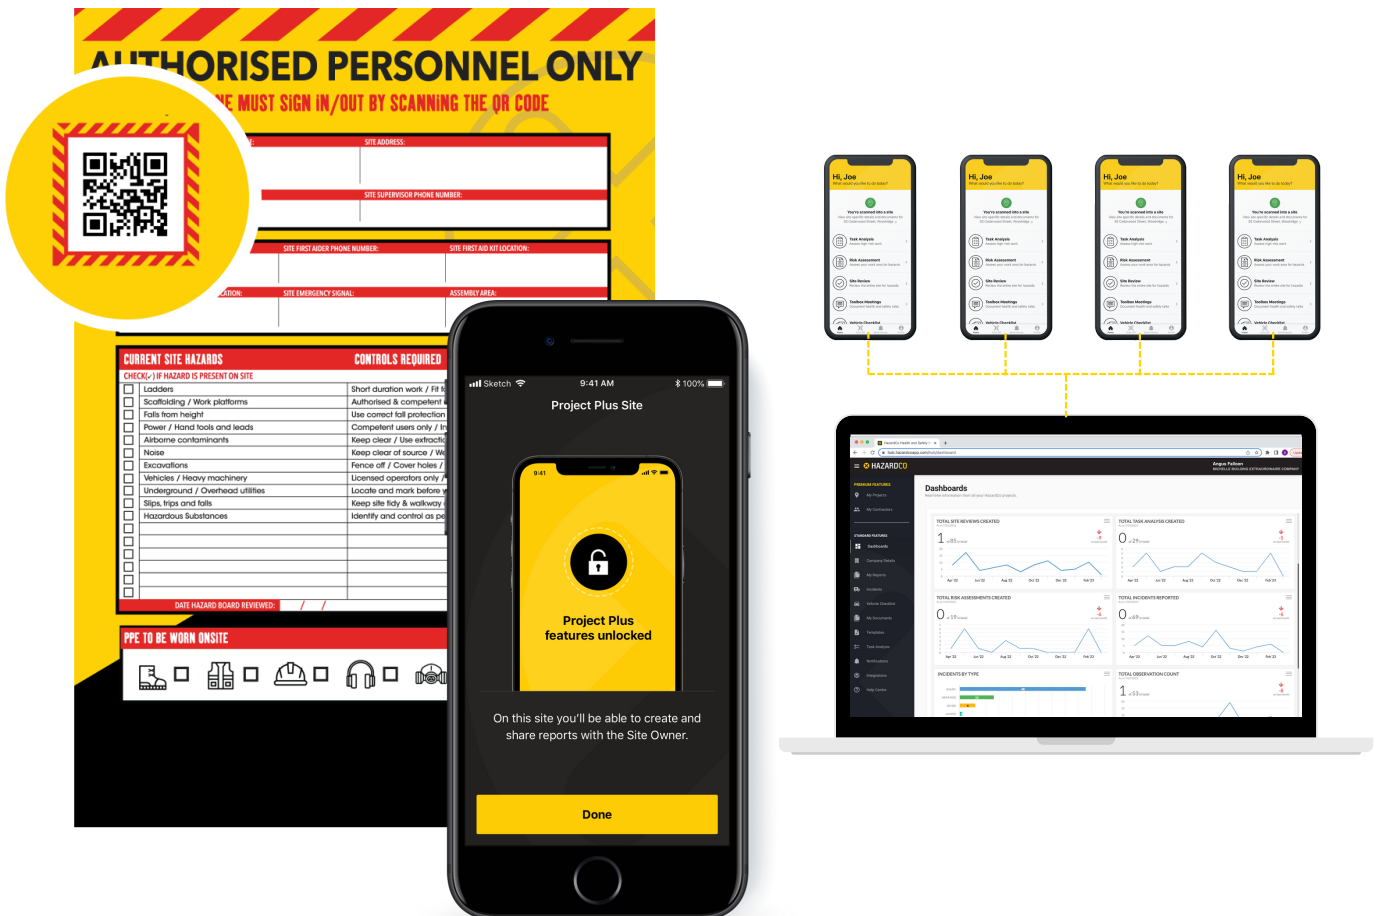

The image displays three key safety resources provided by HazardCo:

- Authorised Personnel Only Signage:** A yellow and red striped sign with a QR code for sign-in. The sign includes fields for: SITE ADDRESS, SITE SUPERVISOR PHONE NUMBER, SITE FIRST AIDER PHONE NUMBER, SITE FIRST AID KIT LOCATION, SITE EMERGENCY SIGNAL, and ASSEMBLY AREA.
- Current Site Hazards and Controls Required Board:** A table with two columns: 'CURRENT SITE HAZARDS' and 'CONTROLS REQUIRED'. The hazards listed include Ladders, Scalloping / Work platforms, Falls from height, Power / Hand tools and leads, Airborne contaminants, Noise, Excavations, Vehicles / Heavy machinery, Underground / Overhead utilities, Slips, trips and falls, and Hazardous Substances. The controls listed include Short duration work / Fit for purpose, Authorised & competent users, Use correct fall protection / Sec, Competent users only / Inspect, Keep clear / Use extraction or, Keep clear of source / Wear he, Fence off / Cover holes / Only, Licensed operators only / Stay, Locate and mark before you dig, and Keep site tidy & walkway clear. A 'DATE HAZARD BOARD REVIEWED' field is also present.
- PPE to be Worn Onsite:** A row of icons representing required personal protective equipment: safety boots, safety glasses, a hard hat, ear protection, and gloves.
- Mobile App Interface:** A smartphone screen showing a user interface with a greeting 'Hi, Joe' and the question 'What would you like to do today?'. Below this is a location pin icon and the text 'You're scanned into a site' with the address '92 Cedarwood Street, Woodridge'. A list of tasks is shown: Task Analysis (Assess high-risk work), Risk Assessment (Assess your work area for hazards), Site Review (Review the entire site for hazards), Toolbox Meetings (Document health and safety talks), and Vehicle Checklist. A bottom navigation bar includes icons for Home, Scan QR, Notifications, and Profile.

PROJECT PLUS

\$449+ GST

- Site Specific Safety Plan (SSSP)
- Site Specific Hazard Board with QR code for sign-in.
- Digital resources to help you manage safety on your site
- Unlock the full HazardCo App for everyone on-site
- Assign Tasks to any on-site worker to complete
- Use the digital site noticeboard to share important info for everyone scanning on-site
- Unlock Project Dashboards that allow you to keep track of H&S activity
- Plus more advanced tools and features!

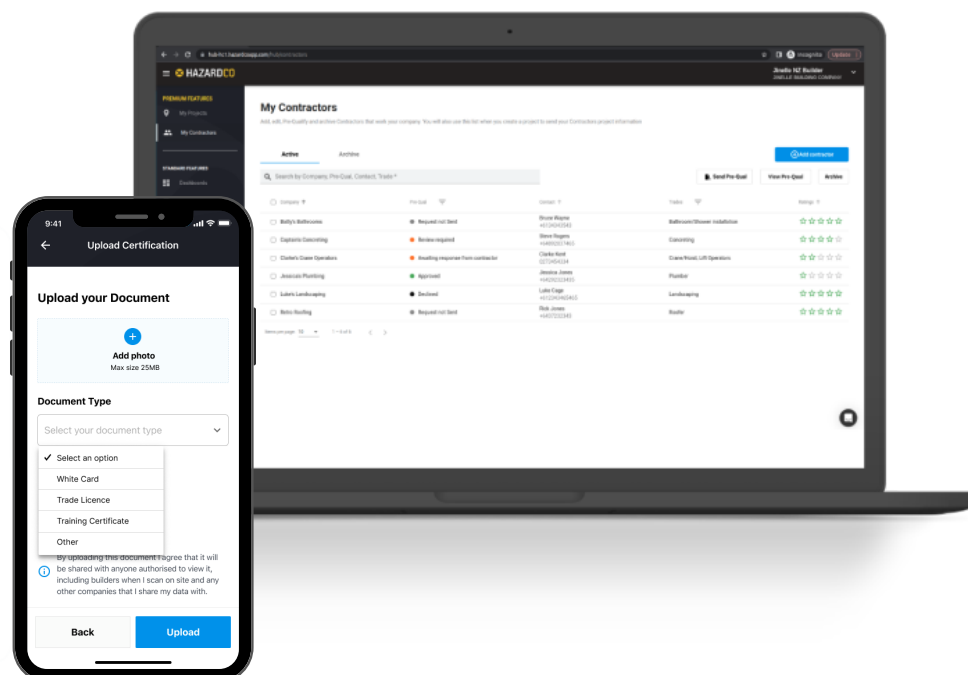

PRE-QUALIFICATION TOOLS

Complete subscription cost \$139/month +GST

As the main contractor, it's important to do your homework before new contractors arrive on-site. Have you checked their insurance and health and safety processes? We've made it simple, with an automated system designed for building companies of all sizes

- Pre-Qualification Questionnaire: Hit one button to start the pre-qualification process with a new contractor. They will automatically receive a questionnaire requesting information including their public liability insurance and on-site health and safety processes.
- Automated Reminders: If your contractors don't respond, they will receive email reminders until they complete the process.
- Notification to review: You will get a notification when the documentation is ready to check and approve.
- Scan-In Alerts: If a worker scans onto a site that hasn't been approved yet, you'll get a notification. So unless you hear otherwise, you can be sure everyone on-site is good to go.

TEAM PACK PLUS

\$299+ GST

Dimensions: 160mm depth x 440mm height x 270 mm width

The Team Pack Plus is designed for workers who move regularly from job to job and are not usually managing larger building projects. They are great for managing client inductions and managing safety procedures while on-the-go.

Each Team Pack Plus includes:

- A sturdy, water-tight Site box that acts as a portable Hazard Board that is taken from job to job
- A QR code to keep your client inductions simple and effective.
- A workbook to help you manage safety while you work, taking you through everything you need for induction, safety procedures and hazard identification/ management.
- 1KG fire extinguisher
- Premium First Aid Kit
- Air horn to attract attention during an emergency

EMERGENCY BOX

\$299+ GST

Dimensions: 160mm depth x 440mm height x 270 mm width

The Emergency Box is designed to provide the essentials to respond to an emergency situation in all types of workplaces.

- Air horn to attract attention during an emergency
- Premium First Aid Kit
- 1kg dry powder fire extinguisher - certified and tagged to NZS 4503
- Emergency plan inside the lid to keep everyone informed
- Sturdy watertight construction
- Made from high-quality UV resistant Polyethylene
- Fix to a gate, fence, wall or machinery with the included fixings

HAZARDCO SERVICES

Get extra health and safety support when you need it

When you're a HazardCo member, you can call our awesome team of health and safety experts for free advice and incident support.

The team also offers a whole bunch of additional services at a special rate, exclusively for members. Whether you want some hands-on help in setting up the system or you want someone to visit your sites to help you out with reporting, we've got you covered!

We can help you out with a whole raft of H&S support, such as:

- GAP analysis – We'll assess how well your business is currently managing H&S and provide you with an improvement plan.
- Assisted pre-qualification – We'll review your contractor's pre-qualification responses..
- Document creation / review – We'll develop custom H&S documents for your business or check your work to make sure it's up to scratch.
- Medium density support – Medium density comes with extra complexity, talk to us about our medium density specific projects.
- Onsite Support - We can come out to your site and complete a site review for you or even run a toolbox training with your team.
- Outsources H&S Advisor - If you're looking for an ongoing H&S consultant, we offer affordable rates exclusivity for HazardCo members. We can provide you with a virtual or in-person consultant that knows construction H&S like the back of their hand.
- And more. Get in touch to learn more!
